

Dovetail Office™

EDR and Clinical

Dovetail's intuitive cloud-based EDR (Electronic Dental Record) and Clinical solution provides you with an easy way of accessing and entering patient information, completing exams, developing treatment plans and producing progress notes whether you are in your clinic or on the go - all from your mobile tablet or from any platform that has a web browser.

Features

- Medical history
- Exams
- Treatment plans
- Progress notes
- Voice recognition
- Bridge to digital imaging systems

Practice Management

Dovetail's practice management features enable you to really take a hold of your practice. From customizing your practice settings, to adding staff members, to configuring treatments and adding templates, you have the control. It also allows you to schedule and confirm appointments automatically, easily submit electronic insurance claims and see what's happening in real-time in your clinic both from a productivity and a financial standpoint.

Features:

- Practice setting and team management tools
- Intelligent scheduling
- Productivity reports
- Electronic insurance claims

Benefits of Dovetail Office™

- Protect your data with a secure HIPAA compliant solution
- Configure your practice quickly and start using Dovetail Office™ in just a few minutes
- Save money with a low monthly subscription fee
- Access your practice anytime, anywhere from your mobile tablet
- Save on IT spending: no downloads, updates, back ups or maintenance required
- Eliminate heavy documentation and secretarial tasks
- Know how your clinic is doing by using our real-time reports
